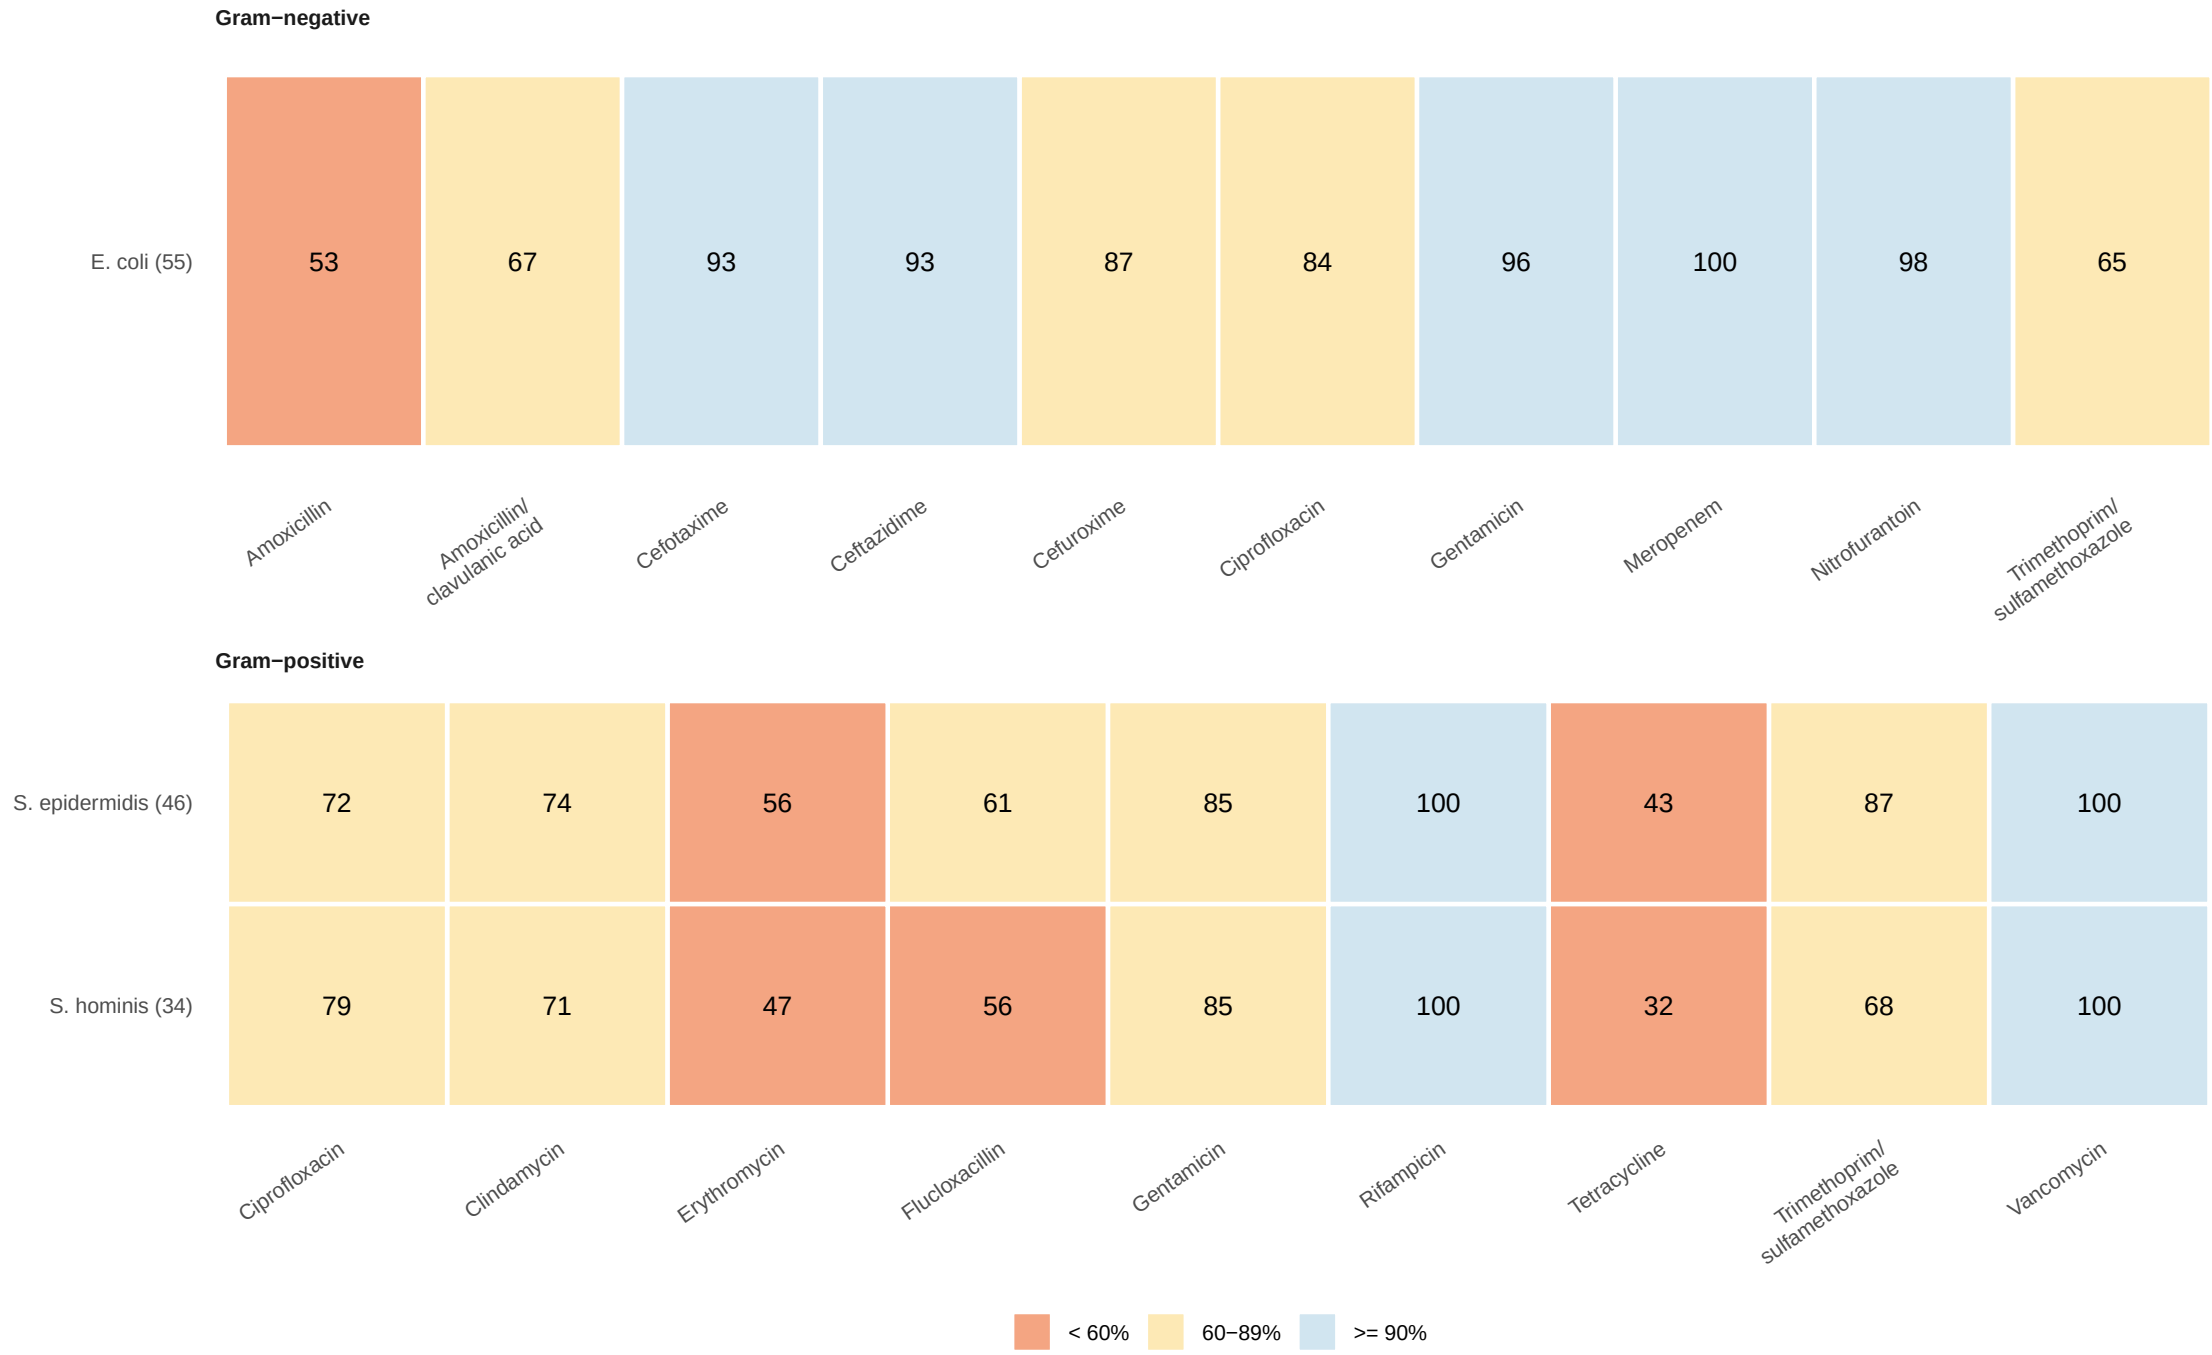
Cumulative antibiogram, 2015−2017

Demo hospital (AMR package example_isolates, fictitious)
% susceptible. Organism (number of first isolates).



First isolate per patient and species per 365 days (CLSI M39). Raw MIC and disk values: EUCAST 2025 breakpoints; S/I/R reported by the lab kept as reported.
Blank: fewer than 30 isolates tested, intrinsic resistance, or not tested. n/a*: the guideline has no susceptible category for this drug (see the CSV tables for % intermediate).
